

WATER REPELLENT 100% CONTINUOUS FILAMENT POLYESTER SEWING THREAD

Durafix WR®

Durak Durafix WR® is 100% high tenacity continuous filament polyester sewing thread with water repellent. It is an excellent choice for outdoor products, shoes and accessories as it has a specially formulated surface that provides a high water resistance. It prevents water from being absorbed by the thread thanks to PFC-free water-preventing coating material. This coating prevents the water from flowing through the stitch holes when the correct sewing tension is used. High tensile tenacity and optimum stretch specifications produce smooth and attractive sewing in leather shoes. It is especially lubricated to give a high durability-fineness ratio and a smooth, refined look. This lubrication also improves the sewing performance of the thread.
